

Overview

This is an exciting 250-hour Advanced Studies Program; meeting 3 times-a-year and spanning 3-years; designed for the practitioner/student who is seeking to expand one's expertise and knowledge of specific methodology of the Advanced Methods of Hahnemann, and through the specific methodology of Dr. Luc, gained through his vast clinical expertise and research. All new unreleased material will aide you in achieving and maintaining the Simillimum with your most difficult cases, combined with specific case taking and management techniques.

Although maximum benefit is achieved through full attendance of the program, each seminar topic can be attended individually without missing key foundational concepts; which are derived from the recommended reading of Dr Luc's books.

Dr. Luc spends one full day of each seminar with a live case, a thorough analysis, case follow-ups, and insights into mangement not available in his books, and there is plenty of time for questions and answers. Active support throughout the year is available for full-time program participants, with guidance to your most difficult case questions, through the program's lively online support group of RICH Roundtable.

Be prepared for a great Advanced Homeopathic Program led by Dr. Luc; filled with great moments of depth, insight and laughter!

Advanced
Studies
Program**

**Dr. Luc
De Schepper**

2005 - 2008

Dr. Luc

Dr. Luc De Schepper, MD, PhD, DI Hom., CHom., Lic.Ac, is considered one of the foremost contemporary Homeopaths in the world, is fluent in four languages, and is a renowned international lecturer in Classical Homeopathy. He is the founder of the *Renaissance Institute of Classical Homeopathy* and author of fourteen books on homeopathy, acupuncture, and holistic health care, and has seen over 200,000 patients in 29 years of private practice. In recent years, Dr. Luc has treated people exclusively with Hahnemann's Advanced Methods according to the 5th and 6th edition of the Organon with great success. He is known to his students throughout the world as a brilliant and inspiring lecturer, and to thousands of his patients as a gentle and compassionate healer. Most recently, Dr. Luc has been part of a homeopathic team in the relief efforts in Sri Lanka through "Homeopaths without Borders," and has lectured extensively in China on integrating Homeopathy and Traditional Chinese Medicine (TCM), which will be included in his advanced lecture material for his upcoming seminars.

Philosophy

"The goal of my advanced program is to guide and mentor practitioners and students to deepen their understanding and to further their knowledge of the Advanced Methods of the 5th and 6th edition of the Organon, as well as to teach people how to apply my specific methodology to reach their goals of consistent and successful casetaking and management; thus, be able to address and cure the most difficult of cases. Indeed, by consistently managing your chronic cases well, will it lead you to becoming the highest form of an Advanced Homeopathic Practitioner and healer."

"In my program, I will be teaching my latest unreleased material and methodology which will allow you to consistently find and maintain the Simillimum in your own homeopathic practice. We will use the patient's expression and link it to the delusions, and from that we will make a differential diagnosis with the top remedies. Our goal again, is translating the language of the patient to the language of the repertory, which this successfully achieves. Examples of the concepts I will present throughout the program: Struggle in Life (why am I here, for what purpose, etc), Industrious (workaholic), Sense of Duty (over concern for others), Helpless (dependent/co-dependent), Split Personality, Hypochondria, Despair of Recovery, Lack of Self-Worth, Forsaken, Fear of Bodily Harm, Terror, etc."

"The other area I will teach you has been highly requested from my students through the years; how to integrate practical clinical applications of Traditional Chinese Medicine (TCM) to improve on the selection of your Homeopathic Simillimum through the Five Elements of Fire, Earth, Metal, Water and Wood; each relating to the remedies, constitutions and organs."

"I hope to see you in my Advanced Program, and to help you deepen your knowledge and passion for the Advanced Methods and my specific methodology, which will gently and consistently guide you through life!"

Objectives

1. Link new concepts to the corresponding delusions and top remedies (i.e., Lack of self worth, forsaken, low self-worth--see Philosophy section for more concept examples)
2. Integrate practical clinical applications of Traditional Chinese Medicine (TCM) to improve on the selection of your homeopathic simillimum. **Of the Five Elements, one element per seminar will be presented, starting in session two seminar.**
3. Understand remedy pictures through their different miasmatic stages.
4. Facilitate the translation of the patient's language into the language of the repertory.
5. Above all, learn to maintain the Simillimum through exact management after a first successful prescription. Gain better case taking skills through live cases.
6. Gain a deeper understanding of the Advanced 5th and 6th edition Methods of the Organon.
7. Integrate other modalities (psychology, acupuncture, etc.) to improve on the selection of the Simillimum.
8. Differential Diagnosis (Comparative MM) of the most important remedies for each concept based on true provings.
9. Understand the miasmatic influence in the selection of remedies.
10. Precise analysis of remedies to determine their miasmatic content based on the provings.

Note: Reading *Achieving and Maintaining the Simillimum*, *Hahnemann Revisited*, and *Homeopathy and the Periodic Table* is recommended in order to have full profit of these seminars.
